

london underground reel

out of sight, out of mind

why choose a london underground reel?

If you don't want the pool cover reel in the way or just plain don't want to look at a reel poolside, then why not hide it away?

The London is a simple, durable, manually operated reel that is hidden out of sight.

With the London option we supply both the reel mechanism (tube, hubs, axles, gearbox, handle and mounting brackets) and the enclosure.

The moulded enclosure allows you to install your reel underground leaving the lid at ground level.

benefits of a london underground reel

- Extends the life of the cover
- Keeps the deck clear for the kids
- Easy to operate
- Helps achieve an amazing looking pool surround

Call us to discuss your options.
