

# under seat pool reels

making pool cover use easy

## how under seat pool cover reels work

Pool covers are a good idea; they reduce the amount of leaves, dirt and debris getting into your pool, extend the swimming season, and because they prevent evaporation, they can reduce a pool's running costs significantly. However, many owners don't want to look at their pool covers, or trip over them. They want to hide their pool covers: another good idea. At BMH, we've made doing just that even easier. Our concealed pool cover roller combines practicality with style to transform your pool reel into useful seating: a stylish poolside addition.

## benefits of a concealed under seat pool reel

- Extends life of pool cover
- Convenient storage system and seating
- Saves time and effort
- For most shapes of pools

Call us to discuss your options.

0800 100 337

## concept

- BMH supplies required seat dimensions.
- The client builds and clads a seat and fits BMH components.
- BMH supplies the hub, axles, handle and tube.

## applications

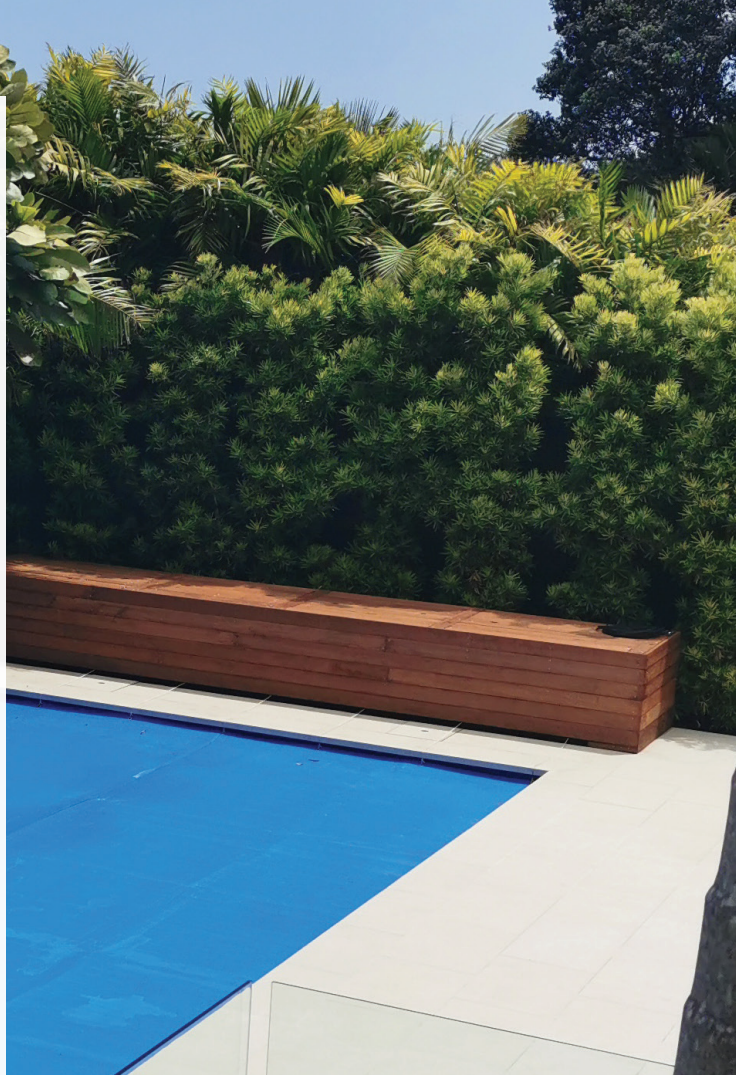

Any pool size when a standard reel is not desirable.

## construction

Generally constructed using a timber frame then clad to match the surrounding deck.

The BMH concealed pool cover roller has the option of black powder coated cast aluminium "crank" style handle or black plastic "wheel" style handle.

The tube is 75mm extruded aluminium, 3mm wall thickness, marine anodised.

## under seat pool cover reel unique features

- Built to last using stainless & aluminium
- Easy, single handed use
- Proven on pools nationwide
- Stylish, unobtrusive design
- High stability while still free standing
